Dear Motor Carrier:

Enclosed is the annual New York State Department of Transportation Bus Inspection System Operator Profile that summarizes the results of vehicle inspections performed on your fleet by the Department during the last State Fiscal Year (April 1, 2020 to March 31, 2021). For regular inspections, the profile identifies the number and percentage of vehicles that passed or were placed Out-of-Service (OOS) due to one or more OOS defects. It is the Department's continued goal to have all operators pass at least 90% of their scheduled safety inspections. The current statewide average OOS rate is 3.3% (96.7% pass rate).

We congratulate those operators who have achieved the goal of a 90% or greater pass rate. Your commendable performance indicates a strong dedication to safety and a commitment to sound maintenance standards and practices.

Operators who have a passing rate of less than 90%, it is requested that your organization examine the enclosed profile inspection data and immediately update your maintenance program in order to achieve the Department's stated goal. Your Regional Bus Inspection Program Supervisor is available to review the actions being taken and provide assistance, if necessary, to address any needed changes.

For those operators whose OOS rate is 25% or greater and fall under the Department's enforcement program, you will be contacted shortly to address your unacceptable poor performance. Actions include, but are not limited to, civil penalties, unannounced vehicle inspections, denial of B & C privileges, and compliance reviews.

You can find contact information for the Supervising Motor Vehicle Inspector in your area at:
<https://www.dot.ny.gov/divisions/operating/osss/bus/contact-list>

Please visit <https://www.dot.ny.gov/divisions/operating/osss/bus> for program updates.

To All Motor Carriers of Passengers:

Re: Accident Reporting

Pursuant to 17NYCRR Part 722.1, any carrier subject to New York State Department of Transportation (NYSDOT) inspection jurisdiction must immediately report to the Department any incident that meets the definition of a reportable accident.

The following outlines the form and manner in which these accidents are to be reported:

- Any accident being reported via telephone must now be made to the Department's Statewide Transportation Information & Coordination Center (STICC) at (518) 457-3765. Calls are no longer to be made to Regional Traffic Management Centers (TMC's).
- The Department has approved a revised reporting form which is to be utilized in all cases for those who choose to report an accident in written format. A copy of this form can be found at: <https://www.dot.ny.gov/divisions/operating/osss/bus/accident>. Completed forms are to be sent to the Department via e-mail at sticc@dot.ny.gov or via fax at (518) 485-9318.

Definition of a Reportable Accident

(a) Any accident in any way involving a motor vehicle subject to department inspection, which results in the loss of life or injury of any passenger, employee or other person, or which was caused by mechanical failure (regardless of whether or not injuries were incurred), shall be immediately reported to the department by telephone or electronically to: sticc@dot.ny.gov

(b) In addition to an incident commonly known as an accident, the following are reportable accidents within the purview of this Part:

1. any mechanical failure;
2. evidence of intrusion into the body of the vehicle of carbon monoxide, exhaust fumes emitted from such vehicle, or other noxious gases or smoke;
3. smoke (other than normal exhaust) emanating from the engine or any other part of the vehicle, whether internal or external; and
4. presence of or emission, whether internal or external, of sparks, flame or fire.

(c) No work shall be performed on and no passengers shall be transported in the vehicle involved until it is released by the Department of Transportation.
